

‘Chartered Institute of Environmental Health (CIEH) Principles and Practice of Manual Handling level 2’

The benefits of this one day course include minimising the risk of litigation, reduced insurance premiums, and ensuring the health and safety of employees.

Qualification follows a 30 question multi-choice examination, and a physical assessment of seven vital areas of lifting and handling on the day.

Training and assessment carried out in the workplace minimises employer expense.

Qualification and Certification is issued by the Chartered Institute of Environmental Health.

For prices and full course details either call Ray Hood on +44 (0) 7768 201505 or email
